

Swimming

The children have a minimum of 12 swimming lessons every year, through-out their time at the school, from Reception to Year 6.

This results in a high competency level in swimming. By the time the children are in year 6 they are confident, proficient swimmers, able to use various swimming styles, swim over 50 metres and they are able to use life-saving skills.

The year-on-year progress in swimming is tracked for each, individual pupil and all pupils leave the school in year 6, with well-above average swimming capabilities. Opportunities are also provided for all year 5 and 6 pupils to attend outdoor water sports annually and during bi-annual, residential trips.
